EXPLORE YOUR

Inspiration Home

The Solstice model showcases a modern ranch-style design, blending breathtaking curb appeal with a spacious floor plan ideal for entertainment. A vast lanai and endless outdoor amenities seamlessly flow into forward-thinking indoor living spaces, separated by expansive disappearing glass doors. The kitchen, which features a broad island and deep pantry with optional open cabinetry, transitions into a grand room and lavish dining area perfect for peering out at pristine hardwood preserves and lakefront scenery.

This stunning design not only incorporates unique ceiling details and an optional wine room, but allows the den, third bathroom, third suite and bonus room to be converted into a multigenerational living space.
